

## **REACH SVHC Declaration**

Registration, Evaluation, Authorization and restriction of Chemicals  
181 Substances of Very High Concern (SVHC) on ECHA Candidate List

January 17, 2018

Dear Valued Customers,

Kester is a Downstream User as defined by the requirements of the European Union (EU) Regulation - Registration, Evaluation, Authorisation and restriction of Chemicals (REACH). Kester solder products are defined in the REACH regulations as mixtures consisting of two or more individual substances. Mixtures do not require registration under Article 7.1 of REACH. The individual raw material substances that are mixed together to make up the solder product would be registered separately. Therefore Kester will ensure that all individual raw material substances that are purchased from upstream suppliers will follow through with final REACH registration.

All Kester products are mixtures. Mixtures are in SVHC compliance when SVHCs above threshold values are listed on the Kester Safety Data Sheets (SDSs). Kester lists SVHCs on the SDS in accordance to REACH requirements. All Kester products are in compliance with SVHC REACH regulations. Kester SDS will report the presence of any Substance of Very High Concern (SVHC) on the attached European Chemicals Agency (ECHA) Candidate List.

Kester issues SDSs for our solder products that conform to the United Nations Globally Harmonized System (GHS) and follow the criteria for classification of mixtures in accordance with Regulation (EC) No. 1272/2008 Classification, Labeling and Packaging (CLP).

In addition, the 7 materials added to the Candidate List on 15 Jan 2018 are not included in any Kester products.

For additional information on this subject contact Kester Customer Service at [CustomerService@Kester.com](mailto:CustomerService@Kester.com).

Sincerely,
